

SUBSIDIZED WEB SITES

Four Bridges will offer a subsidized web site for the students and graduates. It is subsidized because it will be offered on a sliding scale basis.

A personal web site is a cost effective place for them to share their story in terms of past, present and future. The past is their background until coming to the seminary. The present is a sketch of their current circumstances. And future is a report on how God is leading them after graduation. From this place they could send out email newsletters to an increasing support base of intercessors, advisors and donors. On this site they can post pictures, teaching handouts and MP3 audio files.

There can be simple, intermediate and comprehensive web sites offered.

Those who teach and preach as part of the audio over the web will have a basic profile web site.

Here is a detailed outline of what this could contain
